FOR IMMEDIATE RELEASE

The Greening of the Real Estate Industry

Instanet Solutions launches green, paperless initiative for real estate

AUSTIN, TX – May 5th, 2009 – Instanet Solutions announced today that it has launched a new initiative that enables real estate professionals to position their businesses as ‘green’ enterprises, by going paperless and helping the environment.

The *Go Green, Go Paperless* campaign can be leveraged by both individuals and organizations who wish to position themselves as ‘green’ and environmentally conscious. Instanet Solutions will provide an online, ‘paperless counter’ to individuals and organizations so they can display how much they’ve helped the environment on their websites.

Instanet Solutions’ own website counter shows that its customers have saved over 8.5 million sheets of paper by using the company’s various paperless solutions.

“Taking your real estate business paperless not only helps the environment, but also saves money through efficiencies and reduced expenses,” says Joe Kazzoun, vice president of business and product development of Instanet Solutions. “Additionally, going paperless gives you the ability to show you are serving your clients and prospects using the latest technology.”

As part of the campaign, Instanet Solutions has also launched a new website with the URLs – www.gggp.com and www.gogreengopaperless.com.

About Instanet Solutions: Instanet Solutions is a leading provider of real estate technology with approximately 350,000 licensed, paid, user accounts of their various real estate focused products – *InstanetForms™*, *TransactionDesk™*, *DocBox™*, *InstanetFax™* and *Authentisign™*. Instanet Solutions began delivering residential real estate technology in 1992. Further information about Instanet Solutions and its products is available at <http://www.instanetsolutions.com>.
