Fax to Email or Email to Fax

Available Everywhere on Anything

Includes FaxIt™ Send an email to a fax number.

FaxIt™ Highlights:

Works with any email program

Send an email to a fax number from any email program including Outlook, Mac Mail, Google, Yahoo!, AOL and others. Any files you attach will be faxed to your recipient.

Save paper and toner

No need to print and then fax.

No need to hand-write phone numbers

Just use your email contact list

Digital time stamping

Third-party verification of sent and received faxes.

How Does It Work?

Create the InstanetFax cover sheet by filling-in and printing the simple PDF form. When you use the cover sheet to fax the documents to your recipients we turn the fax into an email and include the documents as PDF attachments.

“Draft” or “Confidential” Watermarks

Add watermarks with one click.

All Faxes Are Sent Toll Free

No one is charged for outgoing or incoming faxes in the continental U.S. or Canada.

Turn One Fax into Multiple PDFs

The only fax service that turns one fax into multiple PDF documents.

Easy Offline Fax Coversheets

Save the pdf to your hard drive. You don't need to be online to create a coversheet.

Emails Branded with Your Logo

Your custom logo is included on every fax.

Digital Time Stamping

InstanetFax gives third-party verification of the time and date the fax was sent.
